

<b>Mahoney Contracts Ltd</b>	<b>Document No:</b>	PO-008
<b>Environmental Policy</b>	<b>Revision:</b>	1.1
	<b>Date:</b>	26/10/2021

### **Purpose**

Mahoney Contracts Ltd recognises the need for environmental protection and sustainable development. The Organisation is committed to operating its business responsibly and in fulfilment of its compliance obligations.

It is the Organisation's declared policy to operate with and to maintain good relations with relevant regulatory bodies.

### **Scope**

This policy covers the issue and revision of manuals, policies, procedures, work instructions, forms and other documents required to support the Organisation's Management System.

Mahoney Contracts operates an Environmental Management System that has gained ISO 14001:2015 certification, including aspects specific to its scope of certification.

It is the Organisation's objective to carry out all necessary activities, to protect the environment and to continually improve the Environmental Management System through the implementation of the following:

- Assess and regularly re-assess the environmental effects of the Organisation's activities
- Training of employees in environmental issues
- Minimise the production of waste
- Minimise material wastage
- Minimise energy wastage
- Promote the use of recyclable and renewable materials
- Prevent pollution in all its forms
- Control noise emissions from operations
- Minimise the risk to the general public and employees from operations and activities undertaken by the Organisation.

### **Responsibility**

Overall responsibility for the implementation of this policy lies with the Company Directors.

The Human Resources Manager is responsible for ensuring that the issue, review, and revision of documents comply with this procedure; and maintaining the Document Control Register.

It is the responsibility of senior management to demonstrate leadership and commitment with respect to the Environmental Management System by:

- Taking accountability for the effectiveness of the Environmental Management System
- Ensuring that the Environmental Policy and Environmental Objectives are established and are compatible with the strategic direction and the context of the Organisation
- Ensuring the integration of the Environmental Management System requirements into the Organisation's business processes

Mahoney Contracts Ltd	Document No:	PO-008
Environmental Policy	Revision:	1.1
	Date:	26/10/2021

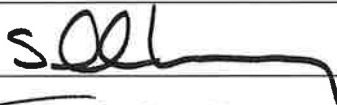

- Ensuring that the resources needed for the Environmental Management System are available
- Communicating the importance of effective environmental management and of conforming to the environmental management system requirements
- Ensuring that the Environmental Management System achieves its intended outcomes
- Directing and supporting persons to contribute to the effectiveness of the environmental management system
- Promoting continual improvement
- Supporting other relevant management roles to demonstrate their leadership as it appears to their areas of responsibility.

### Policy

Mahoney Contracts recognises a responsibility to effectively manage and address the key environmental issues created by and impacting on our business. Effective environmental management contributes to our successful overall performance. Mahoney Contracts will achieve this by:

- Having an awareness and understanding of all relevant statutory legislation to ensure compliance
- Meeting or improving upon relevant legislative, regulatory, and environmental codes of practice.
- Incorporating environmental issues into the decision-making process.
- Developing a relationship with suppliers and contractors so that we all recognise our environmental responsibilities.
- Educating employees so that they carry out their activities in an environmentally responsible manner.
- Ensuring all employees (including sub-contractors) are made aware and understand the policy and potential environmental impact of our business activity
- Ensure efficient use of natural resources by minimising waste and conserving energy and water
- Endeavouring to keep transport use minimised
- Manage work and resources on site to minimise waste and avoid pollution
- Recycle waste where possible
- Source and use recycled building materials where possible
- Utilise efficient machinery where possible
